

# Canada Learning Bond Info Session

Did you know the Government of Canada provides support for families to save for their child's education after high school? If you have a child who was born in 2004 or later, and your net family income is below approximately \$49,000, your child is likely eligible to receive money for education through the Canada Learning Bond.

**You do not need to save any of your own money to get the government funds!**

Join one of our online info sessions to learn:

- how to access government funding to save towards your child's education
- how to set up a no-fee RESP account, without contributing any of your own money
- how to apply for your child's Social Insurance Number (SIN) online from Service Canada
